ABOUT EARTHWISE SOCIETY

Earthwise Society is a catalyst for the creation of sustainable communities by empowering individuals to take responsibility for social, economic, and environmental well-being.

Our work is grounded in the belief that individual choices matter—and that by working together within our local communities, we can meet the needs of both people and the planet.

Our goals are to improve food security, promote environmental stewardship, encourage regenerative agricultural practices, and build stronger, more inclusive communities. Our gardens and teaching farms empower individuals with the knowledge and tools needed to make environmentally responsible choices, strengthen local food systems, and support long-term sustainability. We address food insecurity by redistributing produce from local farms, reducing food waste, and increasing access to healthy food for those in need.

COMMUNITY

Earthwise Society believes community is the foundation of a sustainable future. We work collaboratively with businesses, nonprofits, and local partners to advance environmental health, social well-being, and economic resilience. By aligning around a shared vision, we amplify individual actions, build collective capacity, and create lasting, community-wide impact.

Community engagement is at the heart of all our programs. From therapeutic horticulture for seniors' health and connection to hands-on outdoor learning for school-aged children to Food Coalition programs that strengthen our local food systems, Earthwise Society brings people together to learn, participate, and care for the land.

→ Teaching Farms

→ Delta Food Coalition

→ Garden Buddies

→ Feed the Bees

→ Habitat Stewardship

→ Educations Programs

→ Farm to Table Dinners

WHY PARTNER WITH US?

Support the cultivation of a more sustainable, food-secure community.

Earthwise Society cultivates sustainable communities through environmental education, stewardship, and local food initiatives.

By becoming a partner of Earthwise Society, you help strengthen local food security while supporting meaningful education and community engagement for all ages. Your sponsorship connects you to our land and community through recognition and action.

Let's begin a conversation about how we can work together!
